

SINGLE CHAIR

TABLE

DOUBLE CHAIR

Inflation

1. Clean an area, where the Chillout chair or table should be placed. Mainly sharp objects and chemicals have to be removed.
2. Remove Chillout with all accessories from the bag, unroll it and find the inflation valve.
3. Inflate Chillout by connection a hose of pump to the inflation valve and start inflation. Stop inflation in the moment when Chillout will be rigid. Do not overpressure!
4. After releasing an inflation hose, do not forget to close and tight the small cap of inflation valve.
5. Place seat mattresses on chairs and acrylic glass plates on tables and enjoy your AXION Chillout!

Deflation

1. Put down the seat mattresses and acrylic glass plates.
2. Open inflation valve and wait few minutes till Chillout will be deflated.
3. Fold deflated Chillout.
4. The last step before putting folded Chillout into the bag is to screw inflation valve into its position.

Replacing of sock on back support tube

1. In case sock should be replaced, just unzip old sock from deflated chair and put the new one.

Note

1. Avoid open flame, sharp objects and chemicals!
2. Clean by water, technical alcohol and detergent (no aggressive) only! Do not use aggressive dissolvent!
3. Handle with care. It can be damaged by rough handling!
4. Store dry!
5. Do not overpressure!
6. AXION Chillout is suitable only for hard surface. Do not use it on water!
7. Always screw all valves back into their position after use. Unscrew valves can damage valve bases!
